To Whom it may Concern

Re: Torque Group

James and Andrew from Torque Group took on the building aspect of fully demolishing and preparing our kitchen for a new kitchen. This also included flooring work. I found them a delight to deal with and they always worked with me and my family to ensure we were happy with everything. They went over and above their sole job of building and helped out wherever they could to ensure our kitchen was built and installed the best it could. I would not hesitate to recommend them to anyone as I know they will do the best possible job. Their flooring work was outstanding. Also their tiler and painters were wonderful so overall I would use them for any job big or small as I know they have a great team behind them.

Yours Faithfully,

Claire B
